# Testing & Evaluation

## IT'S TIME FOR YOUR TESTING CHECKUP

Is your child's education a healthy one? Is his knowledge developing normally? Just as we check a young child's physical growth to ensure he is healthy, education needs benchmarks to check growth in learning. BJU Press has 40 years' experience in achievement testing, and we're here to help you with every step along the way—from ordering to results interpretation and more.

### Academic Guidance

Standardized tests guide by showing strengths and weaknesses. Strengths give confidence, and weak scores help by providing course correction. Maybe your student scores well on tests but isn't retaining the material or isn't gaining critical-thinking skills. Test scores help you diagnose areas where your student needs to grow.

### Objective Measurement

The measuring method of standardized tests allows students to overcome both real and perceived limits of chapter tests and final exams. Rather than assessing your child's education based on one textbook or teaching method, measure using the same scale used across the nation. Because of standardized testing's objectivity, accurate results are easy to achieve.

### The Right Fit for Your Student

It is our goal at BJU Press Testing & Evaluation to provide your student with the best test and the most suitable format. While some students benefit from having a real test in their hands, others with a love of technology enjoy the online option.

"BJU was an excellent resource and help for our family's testing this past year and we will be using it in the future."

– Amanda

## Advantages for Online Testing

- Convenient format eliminates shipping worries.
- Scores are available sooner.
- You will not need to submit a test administrator application or renew your profile.
- Most questions appear on the screen one at a time to remove distractions.
- The test includes testing tools (highlighter function, built-in calculator where appropriate).
- BJU Press provides an online test administrator to guide you throughout the process.
- The electronic format makes choices easy to mark.
- The test shows students where questions were left unanswered.

## Advantages for Paper/Pencil Testing

- The test administrator has more control over the testing process.
- Test dates are convenient and flexible.
- Rush shipping is available, allowing students to test earlier.
- Test anytime within a three-week window.
- Students with learning disabilities can receive accommodations.
- Students who have used answer documents in the past may enjoy this familiar format.

All content for *Iowa Assessments*™ Online is the same as the paper/pencil format, and all questions are multiple choice. *Iowa Assessments* and *CogAT*® both use 2017 comparisons (norms).

# We love what we do

Meet some of the Footsteps for Fours' video course team and hear what they love about working at BJU Press to produce engaging lessons for homeschoolers.

Most of the work I do is behind the scenes, but knowing that the work I put in has helped someone better grasp the concepts and gain success is such a great feeling.

*Jared Sicko*  
VOICE OF TOBY

I love how visual our product is. When I was in school, visual learning always had the greatest impact on my comprehension, so I'm happy to see that here.

*Russell McClure*  
SET BUILDER

I love the process of collaborating with a team of talented creatives to make something we know is going to help make a difference in the lives of students.

*Shelley Redlinger*  
VOICE OF SOPHIE

Teaching students to read is one of the most fulfilling experiences a Christian teacher can have. When students learn to read, they gain the ability to read God's Word for themselves.

*Becky Rulapaugh*  
READING INSTRUCTOR

# because of you!

I take pleasure in searching for images that help to communicate new concepts and ideas. I love how pictures capture the beauty of God's creation in nature and the artistic talents of image-bearers in manmade works of art.

*Serena Collins*  
COURSE ASSISTANT

I enjoy the opportunity I have to help organize the material from the textbook into a presentation that helps the students to understand and achieve more.

*Tim Snow*  
INSTRUCTIONAL DESIGNER

I love the performance side of the job. I get to talk to puppets, dress up like a cowgirl, and color for a living!

*Angie Snow*  
COURSE INSTRUCTOR

I find the challenge of writing music for something new and creative really rewarding. Seeing how music elevates a project from "just another video" to something that is entertaining is quite fulfilling.

*Brian Buda*  
MUSIC COMPOSER

One of my favorite things is when families come to visit and tour our studios. I love to see the joy on the kids' faces when they get to meet their teachers and are wowed by the studios and the process to create their lessons.

## HOMWORKS BY PRECEPT

# Consultant Spotlight

Alice Bradley

My first exposure to BJU Press Homeschool was when I reached out to help a homeschooling family in my church. I came over to watch their

children and saw the curriculum firsthand when I helped them with their schoolwork.

Then, when our oldest child was ready to start kindergarten, my husband and I talked about homeschooling. A Christian

education was a priority for us, because my husband and I grew up in the public school system and agreed that we wanted our children to learn what the Bible had to say about everything they were learning in school.

I felt unqualified for the task I had been given, so we needed a curriculum that I could use without knowing how to teach. After researching, we

decided on the BJU Press Homeschool curriculum and have been so grateful. Our family grew to five children—a son and four daughters. Each one of them is unique in personality and learning styles. Some are quantitative/number/math/logic-oriented, while others are verbal and literary. Homeschooling allowed us to tailor our children's education to their strengths.

Four of my children have graduated from college and are using what they learned to serve the Lord. Homeschooling allowed us to put tools in their tool belts for the Lord to use how He chooses. My youngest just graduated from homeschooling two years ago, so after 23 years, I have finished my homeschooling journey. I have loved homeschooling my children and would not have changed it for anything in the world! I am so

thankful for the freedom and opportunity God gave me to teach them and that God equipped a nobody like me to do such an important job. I can testify that He can also use you if you are willing.

Halfway through our journey, we learned about HomeWorks Consultants and that they needed one in our area. As we prayed about it, we saw it as a way to give back to the homeschooling community by sharing all the wonderful things God has taught us. So many people helped us on our journey, and this was an opportunity for us to help others.

I love encouraging homeschoolers. My customers are like family. I have watched their children grow up. I love hearing their stories of what their children have said and learned. I want to be there for the fun times and the hard times. I try to give them what I would have wanted when I was in the thick of things: someone to listen, laugh, cry, cheer them on, pray for them, and point them to God, who can equip them to do the job He has called them to do.

I meet customers who express doubt that they can homeschool. I listen to them and try to give them confidence to homeschool. They order BJU Press Homeschool, know how to tailor it for the needs of their children, take my number to call for help, and leave with a smile. On those days, I am reminded why I do what I do and am thankful to do what I love. I didn't anticipate becoming a HomeWorks Consultant, but God chose that for me, and I am so glad He did!

## Vacation Stations

Parents, don't let your children lose their academic edge over summer break. What they learned during the year may begin to fade during the months school is out.

That's where Vacation Stations come in. Children in K5–grade 6 can maintain and sharpen their academic skills to prepare for the next grade by doing **just two pages a day** of math, language, and reading reviews. They will enter the next grade confident and prepared to continue their studies. *Vacation Stations* activity books blend meaningful, grade-appropriate practice with colorful characters and exciting themes to keep students engaged. When students are engaged, they enjoy learning.

## Use Agreement

The Subscriber agrees that the Content is the property of BJU Press, and Subscribers have only viewing/use rights. The lessons may not be duplicated, rented, sold, copied, or distributed in any way to anyone. The rights given in this Agreement are nontransferable. Content, as used in this Agreement, includes videos, online assessments, teacher-prepared handouts, answer keys, and any other materials provided by BJU Press and pursuant to this Agreement.

**DVDs**—Customers will have 16 months from the original shipping date to complete the course and return the DVDs, unless prior arrangements are made for an extension.

The DVDs must be returned by the required date, as set forth in the preceding paragraph, unless prior arrangements have been made for extension. Failure to return the DVDs by the end of the access period will result in a penalty of \$100 per month up to a maximum of \$500. DVDs that are returned in an unusable condition will result in a penalty of up to a maximum of \$500.

The DVDs should be returned in the original packaging. A prepaid return label (for the 48 contiguous United States only) will be emailed prior to the required date, as previously noted, to ship the DVDs (only). Return instructions will be included with the email.

Use of the return label(s) for other purposes is strictly forbidden by the carrier (e.g., FedEx) and will result in additional charges to the customer. Please use the prepaid return label to return DVDs by or before the required date. Other return shipping is the responsibility of the customer.

**Online**—The access period is defined as 16 months after the original shipping date, unless prior arrangements are made for an extension.

This right to copy and reuse the handouts applies only to handouts—not to textbooks—and only to BJU Press Video Course Subscribers for use within their immediate family (children living in their home).

## Obligations of the Subscriber

The Subscriber agrees to the terms of this use Agreement. The Subscriber also agrees to pay such taxes now or hereafter imposed on the Agreement and/or educational use of Content in the Subscriber's own jurisdiction.

The Subscriber acknowledges the right of BJU Press to restrict or terminate service for failure to pay, misuse of the Subscriber license rights, or violation of other provisions of this Agreement. The Subscriber also acknowledges the right of BJU Press to assess such late or collection fees as allowed by law.

It is understood that video lessons from BJU Press are for viewing/use rights only. This is a license to use the Content only—you may not pass on the license in any form. This license prohibits the Subscriber from renting, loaning, sharing, duplicating, or trading the Content on the Video Course program or handouts unless expressly allowed by this Agreement.

**DVDs**—The Subscriber agrees to provide a DVD-R playback device. BJU Press Video Lessons on DVD will play on most approved DVD-R players and computers.

### Online

#### Children's Online Privacy Protection Act (COPPA) Privacy Policy, Notice, and Verification of Parental Consent

BJU Press takes great pride in providing exceptional service for our valued customers. In keeping with this commitment, we are dedicated to protecting your privacy and handling any personal information we obtain from you with care and respect as described in our Children's Privacy Policy. This Children's Privacy Policy is designed to answer your questions regarding our privacy policies and principles with respect to children under the age of 13.

Although BJU Press, as a non-profit entity, is not subject to the requirements of the Children's Online Privacy Protection Act (COPPA), we seek to abide by its provisions as a matter of policy. It would require that we inform parents and legal guardians about how we collect, use, and disclose personal information from children under 13 years of age and that we obtain the consent of parents and guardians in order for children under 13 years of age to use BJU Press Homeschool Hub™. Below we explain how we do that for these children. Also, the use of the term *parent* below includes legal guardians.

#### What types of personal information do we collect about children?

BJU Press does not knowingly collect information from children at BJUPressHomeschool.com. BJUPressHomeschool.com is designed to allow adults to purchase BJU Press products and materials. However, if a parent registers his or her child for BJU Press Homeschool Hub, BJU Press will collect information from the parent about the child in order to provide the child with online access to course content, including video presentations, assessments (online and/or printable PDFs), and other educational materials as deemed appropriate and applicable by the course instructor at BJU Press Homeschool Hub. BJU Press will collect the following information from the parent about the child: first and last name, birth date, gender, and grade level. We collect birth dates to validate the age of each child.

#### How do we use and share the personally identifiable information that we have collected about children?

BJU Press will use the child's demographic information to register the child for the BJU Press Homeschool Hub courses purchased for the child by the parent. Registering a student requires the parent to provide a username and password and to confirm his or her first and last name. In addition, the child has the option to upload a Profile Photo. Uploading a Profile Photo is completely optional and subject to the parent's discretion.

After logging into BJU Press Homeschool Hub, a child will have the option to update his or her profile and provide the following additional information: Account Information, including full name, complete mailing address, and phone number(s). Adding profile information is completely optional and subject to the parent's discretion. BJU Press recommends that children not complete the additional profile information.

The child's information will be used to keep track of course progress and grades earned.

A child's personal information will be used only by BJU Press Homeschool Hub staff as necessary to provide services related to the child's enrollment. In addition, we may share a child's personal information with third parties to the extent reasonably necessary to protect the security and integrity of our sites; to take precautions against liability; to respond to judicial process; or to the extent permitted under provisions of law to provide information to law enforcement agencies or for an investigation related to public safety.

#### How do we notify and obtain consent from parents for the collection of information from their children?

BJU Press requires that parents, prior to enrolling their children, review and agree to our terms and conditions, including our Children's Privacy Policy. By registering a child for BJU Press Homeschool Hub and submitting credit-card payment for services, parents indicate agreement with the BJU Press Children's Privacy Policy and authorize BJU Press to collect and use the child's information as described in this policy. Parents who submit payment using check or cash will need to sign and return a statement indicating their agreement with this policy.

#### How can parents review, change, or delete personally identifiable information about their children?

Parents may review, change, or delete their child's personally identifiable information at any time by logging in to the parent's account at BJU Press Homeschool Hub. Parents may contact BJU Press Customer Service at 800-845-5731 at any time if they require additional assistance with their child's account. You may also email us at [bjupinfo@bjupress.com](mailto:bjupinfo@bjupress.com). Completely removing the child's information will require the parent to withdraw the child from BJU Press Homeschool Hub.

#### How will we notify parents if our Children's Privacy Policy changes?

Our Children's Privacy Policy may be amended at any time but will always be made in conformance with applicable law, including applicable provisions of COPPA. For any material changes to our Children's Privacy Policy, we will email parents who have enrolled their children in BJU Press Homeschool Hub.

#### How can parents contact BJU Press with questions about our Children's Privacy Policy?

If you need further assistance, you may email your questions or comments to us at [bjupinfo@bjupress.com](mailto:bjupinfo@bjupress.com). You may also call us at 800-845-5731 or write to us at

# Hopscotch's Picnic Party

One sunny day in Clover Meadow, Hopscotch the rabbit decided to have a \_\_\_\_\_ picnic with his friends. He invited Hopper the frog and Dottie the ladybug to join him.

Hopscotch hopped home to gather some tasty treats. He packed a basket with crunchy \_\_\_\_\_, juicy \_\_\_\_\_, and delicious \_\_\_\_\_.

The friends gathered in a sunny field and spread out a colorful \_\_\_\_\_ for their picnic feast. Hopper leaped with joy, exclaiming, "This has to be the \_\_\_\_\_ picnic ever!"

They shared laughter, stories, and of course, their treats. Dottie, with her polka-dotted wings, fluttered around, adding a touch of \_\_\_\_\_ to the picnic scene. Hopper sang a cheerful tune, making the meadow feel even more \_\_\_\_\_.

After filling their tummies, the friends decided to play a game of \_\_\_\_\_. They hopped and flew around, creating moments of \_\_\_\_\_ and joy.

As the sun set, the friends snapped a quick \_\_\_\_\_ to capture the day's joy. With smiles on their faces, the friends bid farewell to another wonderful day in Clover Meadow. Hopscotch couldn't help but feel grateful for such amazing \_\_\_\_\_.
